### Fire Investigation Call Out Guideline

#### G-550.1 PURPOSE & SCOPE

The purpose of this guideline is to adopt a standardized procedure for San Mateo County fire agencies to request additional fire investigation personnel.

#### G-550.2 GUIDELINE

It is the guideline of the San Mateo County Fire Chiefs that the county fire agencies will use this call out procedure when requesting support from San Mateo County Fire Investigators for assistance with an origin and cause fire investigation. This guideline is based on the premise that the originating agency "owns" the incident. It establishes the procedure for such a resource call-out and also reconfirms the requirement that the "owner" agency retains the ultimate authority, responsibility and accountability for the investigation. The agency's request for the County Fire Investigators' support is to provide supplemental Fire Investigation personnel and resources to assist the host agency. It is not the intent of this guideline for the County Fire Investigators to take over or supplant the owning agency's responsibility for the investigation, but rather to provide necessary support services to assist the owning agency in the successful completion of a demanding investigation.

In the event that the owner agency cannot provide investigative services, they will contract with a neighbor agency or with a private enterprise for such services. Such contract agency will then take the lead in the investigation and may use this callout guideline as deemed necessary. This guideline is not for the purpose of replacing investigation personnel for an agency that does not employ certified origin and cause fire investigators.

- countywide investigator group alpha page to all participating personnel with the requestor's contact information.
- b. The group alpha page will be repeated every ninety (90) seconds until the Lead Investigator/Agency Representative calls PSC to cancel the page.
  - c. Responding Investigators will contact PSCD to report they are responding and give their estimated time of arrival to the scene.
  - d. PSCD will contact the IC as to which investigators are responding (by unit number i.e., PR8A), the IC will then direct PSCD to send out a group alpha cancellation page.
  - e. Responding Investigators shall maintain their accurate status with PSC (i.e. responding, on scene, clear).

#### 2. DUTIES OF INVESTIGATORS:

- a. Incident Lead Investigator/Agency Representative:
  - i. Manage responding investigators to the scene.
  - ii. Organize and coordinate the fire investigation operations, maintain personnel safety and rehab all assigned personnel before releasing them from the incident.
  - iii. Be responsible for the entire origin and cause fire investigation report, liaison with law enforcement, and field all media contacts when necessary.
- b. Fire Investigator:
  - i. Upon direction from the Lead Investigator/Agency Representative, respond to the incident with all department issued PPE.
  - ii. Report to the Command Post/Incident Commander. Then report to the Lead Investigator/Agency Representative and carry out duties as assigned
  - iii. Maintain accountability with Incident Commander.
  - iv. Submit a written summary of your investigation findings or provide verbal reports to the Lead Investigator/Agency Representative.
